A Child Drowned.

On Sunday last a four year old child of Henry Edgers, a Carson Valley rancher, was missed from home and making a search its body was found in a slough running into the Carson river. Every effort was made to resuscitate it but without avail. The mother was in a delicate condition and the shock caused her to give birth to a child shortly after hearing the terrible news. The child was buried at Genoa Monday.

Gone East.

Mrs. C. F. Bicknell and her son Walter, and Mrs. George Thaxter, left for Portland, Maine, last evening, where they will spend three months. Portland is the home of their childhood, which they have not visited for years.

A Compromise.

The Gazette says arrangements have been made by the Mohawk Valley Railroad Company to cancel the indebtedness held against it by Hi Wah, of Carson, Moi Foot, of Quincy, and Quong Mon Yuen, of Reno, for grading and other work done. The amount for which the Chinamen are said to have sued was \$9,000. The compromise calls for \$6,500, which amount, it is stated, has been accepted by the Chinamen as payment in full, the same to be paid to them prior to July 10th next.

A Successful Caterer.

Since Mr. Bryan took charge of the old Sweeney restaurant it has become an instantaneous success. It has put the restaurant on its feet again better than ever. All the old patrons are coming back and express themselves more than pleased with the excellent table and the general service of the place.

AGRICULTURAL REPORT.

An Editor's Success With a New Grass.

The following correspondence explains itself:
 AGRICULTURAL DEPARTMENT,
 WASHINGTON, D. C.
 Jan. 4th, 1887.

TO THE EDITOR OF THE APPEAL.
 —Dear Sir:—I am directed by the head of the Agricultural Bureau to send you three pounds of grass seeds for planting. It is a new grass introduced into this country from Spain and after growing it we shall expect you to forward a report to this Bureau.

Respectfully,
 JOHN ANDREWS,
 Clerk.

We mailed the following report yesterday:

CARSON CITY, Nevada, June 14.
 To John Andrews, Clerk Agricultural Bureau, Washington D. C.

Dear Sir:—In pursuance of your instructions of January 4th, I planted some seed, the receipt of which was acknowledged by me Jan. 15th, of the present year.

I had some trouble with it just on account of it being next the hen yard. Nothing in your letter exempted the hen yard, hence my mistake. Placed some of W. D. Torreyson's wire and slat fence about the yard. Grass still the under dog. Bought more fence and made it two ply and twelve feet high. Chickens picked the gate lock and attacked the grass.

Gate lock made of bailing rope, and unreliable. Put pad lock on gate. Wife sent me out every night at 2:30 to see if lock was all right. Chicken's dug hole under the fence and again mowed down the grass. Planted more grass and killed all the chickens. Watered it carefully every day. Children out watering grass all day and down sick at night.

Just as grass got above ground again wife was presented with some Lehigh thoroughbreds. Grass was wiped out again. Killed chickens again and made another attempt. Grass now up two inches high and flourishing.

ED. APPEAL.

P. S. John Bath, old farmer in this city, called at the ranch this morning and pronounces Spanish grass an old fashioned variety of yellow turnip.

In my opinion the act of the Agricultural Department in playing these sort of pranks on innocent people is beneath contempt. Such things never happened prior to the Cleveland Administration. I inclose some of the old turnip tops and desire to sever all further connections with the Department.

Wanted it Done Over Again.

One of the employees of the Union depot, who is a member of the Pennsylvania Relief Association, in conversation with a representative of this paper recently, told a funny incident in connection with the relief fund. It seems that the first member killed was an Italian laborer at 28th street. The company buried the body and forwarded to the man's father in Italy a check for \$500. The old man was so overjoyed at receiving so much money for the loss of a son that he immediately dispatched another son to this country, with instructions to get a job on the railroad and become a member of the association. He is still working on the road.—Pittsburg Commercial Gazette.

A Queer Combination

The Gazette has discovered a new political combination in this State. It says:

It is learned through private sources that ex-Governor Foster and Governor Foraker have formed a combination in Ohio to kill John Sherman as a Presidential candidate. It was Foster who knifed Sherman in the convention that nominated Garfield. Foster's hatred to Sherman is of long standing and deadly; he will neither forgive nor be forgiven. If, as rumored, there be such a combination as the Sherman-Foster combination, Nevada Republicans need have no fear that anti-silver-pro-Chinese-pro-incorporation-pro-self Sherman will be the next Republican nominee for President.

The Hot Springs.

Mr. Shaw is now figuring on bringing the hot water of his Springs into the city of Carson and will probably locate some where near the R. R. Shops. It is the general opinion that the location of the “terminus” of the Springs in this city, will cause a large increase of business to accrue to them.

No Chance for Buncumb.

The other day in San Francisco a member of the Fourth of July Committee hung an American flag across Kearney street to indicate where the headquarters of the Fourth of July Committee might be found. In a few moments a policeman came up, tapped the party on the shoulder and placed him under arrest for violating a city ordinance in hanging a flag across the street. The arrested man, an American, went to the City Hall, pleaded guilty and paid a slight fine. There was no row, no trouble and no chance for the blatant politician to get in his work, for everyone knows that the American flag is not easily insulted in the United States, nor do Americans seek for pretext to claim that it has been insulted. The policeman was an American and simply did his duty as an officer.

But let us suppose that instead of an American flag an Irish flag had been hung out for a St. Patrick headquarters and a policeman had ordered it down. On the night of that same day a lot of big mouthed, blatant demagogues would be holding forth from hired halls and inciting the Irish to revenge the insult aimed at them and their country. If the policeman who ordered the flag down was a Republican the Democrats would go into fits at the great insult to the Irish people, and if it had been ordered down by a Democratic policeman the speakers who were ready to avenge the wrongs of Ireland (with oratory) would each and every one be Republicans. If a German flag were ordered down under the same circumstances, then would the wind bags which hang to the political parties all be on deck affecting to be broken up over the dreadful outrage, and as much political capital would be made as the case would possibly stand. But this time it was only an American flag and there is no chance for political capital. No one is hunting the American vote.

Good News for Everybody.

CHICAGO, June 12.—The Times' Washington special says: There is much quiet talk about the coming decision by the Supreme Court of the Bell Telephone cases. It is understood that Chief Justice Waite and Justices Miller, Field and Blanchard are against the claims of the Bell Telephone Company and that Harlan and Matthews are in favor of it. Bradley's views are unknown and Justice Gray refused to sit because some of his relatives are interested in the suit. The remaining member of the court, Justice Woods, as is known, is dead.

The whole case hinges on what is known as the validity of claim 50—that is, the claim that Bell discovered the art of transmitting wave sounds electrically and the repetition of them. The court will hold that this claim cannot stand, for the reason that the Government has decided time and again that any device for transmitting sound can be patented, but the principle cannot. The result of this decision will be to open to the competition of everybody all of the various telephone devices.

William Mooney.

Yesterday a large concourse of people followed the remains of William Mooney to the old Pioneer Cemetery. The writer has known William Mooney for nearly fifteen years, and during that time never heard him accused of a mean or unmanly action. He had no unfortunate advantages in his youth but he made excellent progress in life, and possessed a fair share of worldly wealth from the fact that his honesty was never questioned, and in his rough breast was a heart that beat in sympathy with every man who was in need. Mooney's kind and generous deeds and gifts to the poor were always proverbial in Virginia City.

He came to the Coast when a mere boy and made a game fight for everything he got; but unlike many men his ups and downs and the hard knocks he received never soured his genial temper or made him anything than good hearted, simple minded, honest Bill Mooney, respected by every man with whom he came in contact.

Notice.

Persons using Cemetery water will please call at the Recorder's office and settle by the 20th of June.
